“Celebrating 100 years and still Growing”

As we celebrate our 100th year in business, we reflect on the journey that has brought us here. The ‘De Vroomen’ family, who has owned and operated the company since its founding, takes immense pride in being a leader in the flower bulb and perennial industry. Rooted in history, our story began in the 1920s when our founder, Grandpa Jac.th. De Vroomen, started with humble beginnings and built a successful bulb growing and exporting company.

Our growth has always been driven by a commitment to quality, punctual delivery, authenticity, and a willingness to embrace innovation. In the 1950s, the reins of the business were passed on to his three sons, Hugo, Ben, and Dick, who continued to expand the business. We have consistently invested in enhancing our product line, maintaining our high standards, and increasing our market share. In 2014, we introduced the Simple Pleasure brand for our independent garden center line. Our expansion continued with the acquisition of a well-established perennial and flower bulb company in Canada. This has enabled us to enhance and broaden our grower, landscape, and independent garden center line with a wider range of products and services.

De Vroomen USA recently relocated to a spacious 80,000 sq ft facility in Gurnee, IL. This move provides us with ample room for the growth we are experiencing and allows us to store our products at the optimal temperature. Our commitment to a business plan that focuses on development, investments, research, and flexible production has proven to be a successful model for us. We strive to be a long-term partner to all our customers and suppliers.

We Offer:

Bare Root Perennials

We offer a wide range of #1 size bare root perennials. These plants are field grown for one year to make them the perfect size for producing a one gallon pot. All of our plants come packed in quantities of 25 unless otherwise stated. This allows you to purchase several different varieties without producing far too many plants overall. Our large color labels are packed to match the count of the plant.

Please see our order form for more information. If you wish to receive tags, you must mark it on the order form.

Tubers, Corms and Bulbs

We offer a large selection of tubers, corms and bulbs especially suited for pot production. Popular items such as Dahlias, Lilies, Crocosmia and Callas, for example all make excellent plants for pots. Our Tubers and Bulbs are easy to grow and our sales team will be happy to provide more information if you require it.

We offer labels for these, but please be aware we ship the number of bulbs based on how many you need per gallon pot. For example Crocosmia needs 3 corms per gallon pot so you will require less labels, so 25 labels will be sent per 75 bulbs. Check order form to see if less tags are shipped per variety.

Please see our order form for more information.

Growers at heart

Perennials

We offer a large selection of perennials, grown for us by our partner/contract growers which we have worked closely with for many years. They understand our customer's demands and our high quality expectations. We are always looking for new and improved items to add to our nursery and your perennial selections. We have first hand experience with these varieties and our experienced growers provide our sales team with up to date and relevant information on the best production techniques. Please don't hesitate to contact your sales representative for further information.

Trial Gardens

We work very closely with the growers to ensure that the best varieties are available to suit your potting requirements. We take samples from all shipments, which are then planted at one of our trial sites to ensure quality and true to name. These samples provide us with more technical and growth information. With the feedback we get from the trial sites, we can give more concise information about the products customers receive from us.

Perennial production field

Why use bare root perennials for your perennial production?

- Our bare roots will make a bigger, stronger plant in a shorter time, compared to many liners. This will directly decrease production costs and increase profitability of your perennial production.
- All our Bare Roots are quality products, true to name and proven to perform. This will minimize product losses during your production process.
- Bare Roots are stored dormant, which allows many different delivery dates of vernalized stock. This makes your production very flexible.
- All of our Bare Roots are shipped as a dormant, cold stored crown, so you can be certain the cold requirement has been met.
- Bare Roots can tolerate lower temperatures after planting than many greenhouse-produced plugs or liners. This directly leads to savings in your production process.

Why choose DeVroomen as your bare root supplier?

- Over 700 varieties of bare root perennials from Holland.
- We take the time to look for non catalog listed items or possible substitutions for new or proven varieties.
- We are the largest wholesaler of bare root Peonies in the world.
- Oldest export license into the USA and Europe (grower to grower).
- We guarantee our products to be true to name.
- Products are grown in our own nursery or by selected contract growers.
- Minimum quantity is 25 plants per variety unless otherwise stated.
- Our product manager is in close contact with our growers, to ensure the quality in the field and select the newest varieties.

Experienced, Punctual & Dependable

Everyone at our company makes sure we provide you with the best possible quality perennials. We are known for delivering healthy, true to name and true to size products. Because we take quality seriously, we are a member of the Holland Selection Foundation.

Our products are packed in a state of the art production facility in Lisse, Holland. The independent Dutch PD Inspection Service conducts inspections during each step of the process. As well as using independent inspectors, we also have our own staff to monitor the quality and packing of your plants. They use modern counting machines for packing and a professional logistical system for order picking. We have over 90 years of perennial exporting knowledge.

We guarantee

- the highest quality perennials.
- healthy plants upon delivery.
- that the variety, color and size of the plants agree with what is stated in our catalog.
- tracking and tracing from grower to grower in order to improve our quality and customer service.
- customer service to fit all your needs.

BARE ROOT PERENNIALS

Size #1

The majority of bare root perennials are sold in size #1 divisions in multiples or full crates. Most of these plants are field grown for one year, making them the perfect size for producing a 1 gallon container.

Size #2

Size #2 divisions are divisions of one year plants and a good size for 1 quart (6") pots. Sold as full crates.

Plant size after 10- 12 weeks from a Size #1 bare root.

PERENNIAL PLUGS

Perennial plants and ornamental grasses are available in a wide variety of sizes from the economical 128 plug to the jumbo 21 landscape plug. All plugs are grown in standard 11" x 22" tray.

OUR PARTNERS

SUCCULENTS

We have starter size plants you can grow in your own containers. We also have retail size plants and displays in our IGC catalogs. Check out our web site for more details.

BULBS ARE PERENNIALS

We carry a large selection of bulbs that will add color to your spring perennial program. Ask for a color catalog and program to show how to plant bulbs in the fall that will fill that demand from customers for spring flower bulbs.

'Morning Candle'

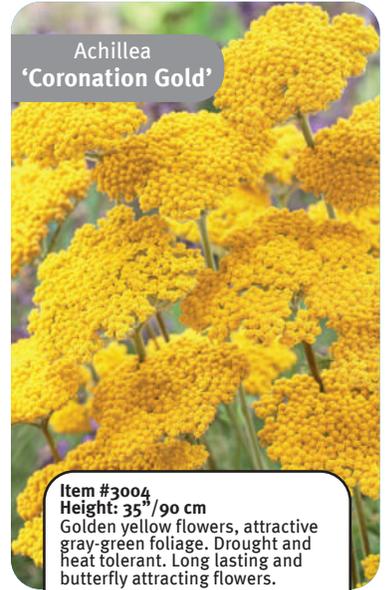

Item #3003
Height: 44-48" / 110-130 cm
Attractive, deeply cut foliage. Floriferous variety. Long lasting flowers (June to September)

ACHILLEA

ACHILLEA
Yarrow

The flower heads are flat, compound corymbs and the main flowering period is early spring until mid summer. The plants tolerate poor, slightly acidic soils but do need well-drained soil. The flowers of most varieties make excellent fresh or dried flowers but pollen must be visible before the flowers are cut, otherwise vase life will be reduced.

Hardiness Zone 3-8

Achillea
'Coronation Gold'

Item #3004
Height: 35" / 90 cm
Golden yellow flowers, attractive gray-green foliage. Drought and heat tolerant. Long lasting and butterfly attracting flowers.

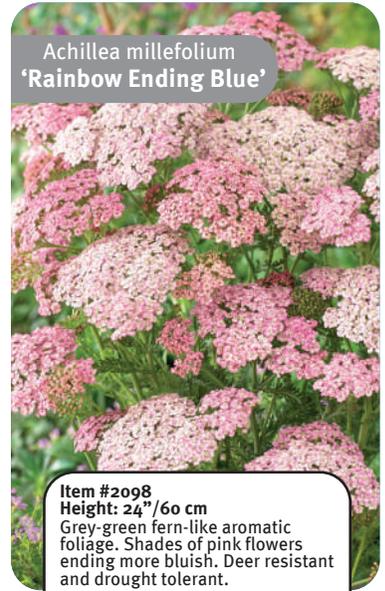

Achillea ptarmica
'Diadem'

Item #6216
Height: 12" / 30 cm
Mounded growing habit. White double flowers on contrasting dark green finely-cut foliage.

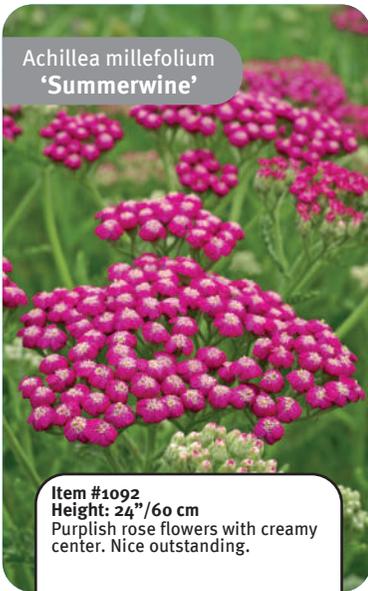

Achillea millefolium
'Lilac Beauty'

Item 8974
Height: 24" / 60 cm
Aromatic grey-green foliage, mid-to-end summer flowering. Also good cut-flower

Achillea millefolium
'Rainbow Ending Blue'

Item #2098
Height: 24" / 60 cm
Grey-green fern-like aromatic foliage. Shades of pink flowers ending more bluish. Deer resistant and drought tolerant.

Achillea millefolium
'Summerwine'

Item #1092
Height: 24" / 60 cm
Purplish rose flowers with creamy center. Nice outstanding.

Achillea
'Walther Funcke'

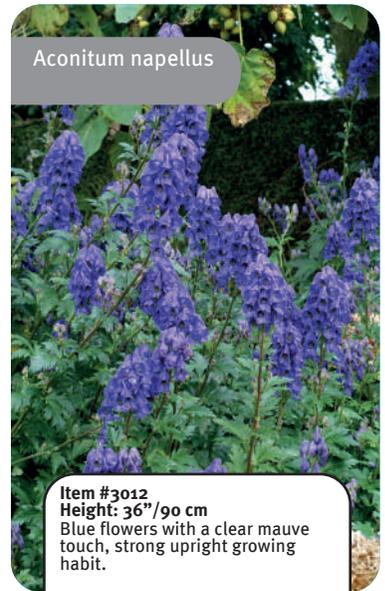

Item #6732
Height: 20" / 50 cm
Orange flowers fading to cream color when matures. Fragrant.

ACONITUM

ACONITUM
Monkshood

Blooms mid summer with hood shaped flowers. Foliage is glossy dark green on loosely branched stems. Leaves are 2-3" / 5-8 cm and deeply fingered with 5-7 toothed lobes. Good for use as cut flowers. Prefers a moist and cool soil.

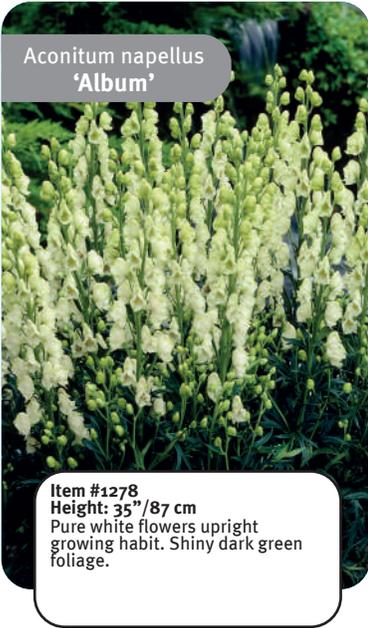

Hardiness Zone 4-7

Aconitum napellus

Item #3012
Height: 36" / 90 cm
Blue flowers with a clear mauve touch, strong upright growing habit.

Height: 52"/130 cm
White flowers with blue edge, excellent to use for cut flowers. One of the 1st to bloom!

Aconitum henryi
'Spark's Variety'

Item #3013
Height: 52"/130 cm
Intense dark violet-blue flowers, great landscaping plant.

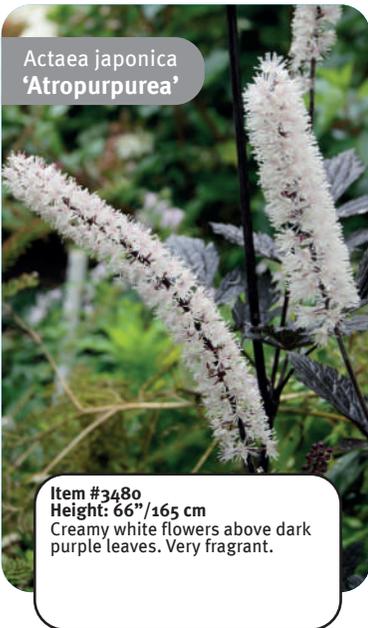

ACTAEA
Bugbane/Snakeroot

Formerly Cimicifuga. Beautiful plants for mid summer through late fall. The creamy to white bottle brush-like flowers are fragrant and repel insects (all are fragrant, except Actaea racemosa var. cordifolia). After flowering attractive lime green seed pods are formed. Plants prefer a moist and rich soil.

Hardiness Zone 3-7

Actaea japonica
'Atropurpurea'

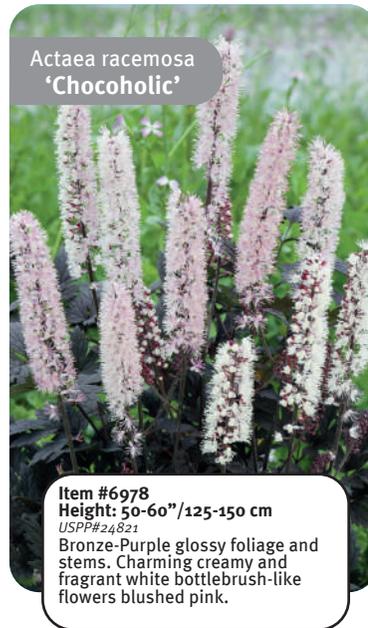

Item #3480
Height: 66"/165 cm
Creamy white flowers above dark purple leaves. Very fragrant.

Actaea simplex
'Brunette'

Item #3010
Height: 48"/120 cm
Striking deep purple foliage, pinkish white flowers fade to creamy white. Great landscaping plant.

Actaea racemosa
'Chocoholic'

Item #6978
Height: 50-60"/125-150 cm
USPP#24821
Bronze-Purple glossy foliage and stems. Charming creamy and fragrant white bottlebrush-like flowers blushed pink.

Actaea
'Pink Spike'

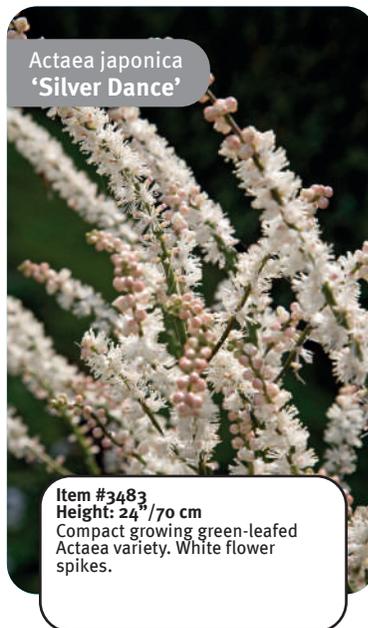

Item #1119
Height: 50"/125 cm
Soft clear pink flowers, dark brown near black foliage. Very spectacular landscaping plant.

Actaea
'Racemosa'

Item #3245
Height: 66"/165 cm
White fragrant flowers, side branches flower late, very tall plant, USA Native.

Actaea japonica
'Silver Dance'

Item #3483
Height: 24"/70 cm
Compact growing green-leaved Actaea variety. White flower spikes.

AGAPANTHUS
Lily of the Nile

Larger flower heads above long and slender foliage blooms in mid summer. In cold climates they can be grown in large pots. Flowers last for about 60 days. A moist and organic soil is critical. Long lasting cut flowers. These varieties are the hardiest of all Agapanthus available.

Hardiness Zone 7-10

Agapanthus
'Africanus'

Item #0736
Height: 32"/80 cm
Lance-shaped leaves creating a robust clump in the garden or container. Deep blue trumpet shaped flowers. Floriferous variety.

Agapanthus
'Black Buddhist'

New

Item #4858
Height: 32"/80 cm
Dark purple flowers and dark stems. Mid-summer flowering. Long lasting cut-flower

Agapanthus
'Dr. Brouwer'

Item #7072
Height: 32"/80 cm
Violet blue flowers on sturdy, dark green stems.

Agapanthus

Sky blue flowers with darker veins are held up by dark stems. Highly attractive to pollinators.

Agapanthus
'White Superior'

Item #7079
Height: 28"/70 cm
White flowers. Flowers earlier than Blue Globe. Great for warmer climate zones.

ALCHEMILLA
Lady's Mantle

Clusters of small yellow flowers bloom just above the light green fan shaped foliage. Each leaf grows up to 3"/8 cm wide. A very early bloomer. Flowers of Alchemilla mollis can be used for dried arrangements as well as for long lasting cut flowers.

Hardiness Zone 4-7

Alchemilla
'Mollis'

Item #3573
Height: 22"/55 cm
Clusters of small yellow flowers, long lasting bluish-grey foliage. Easy to grow in containers, great to use for edging.

ALSTROEMERIA
Peruvian Lily

Astroemeria make excellent garden plants with a long flowering season. They require a rich, well-drained soil in full sun. They can survive some freezing temperatures, but really should be protected with a good mulch in harsh cold climates. Astroemerias are very fragrant and can also be used for cut flowers.

Hardiness Zone 5-9

Astroemeria
'Duchess Marguerite'™

Item #0126
Height: 20"/50 cm
Compact growing habit, excellent for border and container growth. Long lasting flowers.

Astroemeria majestic
Tiercé™

Item #7087
Height: 28"/70 cm
PBR
Intense pink flowers, yellow maroon striped eye-zone. Excellent for border and cut-flower use.

ALLIUM
Ornamental Onion

Unlike other Allium, this variety needs to be planted in the spring. It's a rich flowering plant which does very well as a potted plant with a long flowering season and easy to care for. This variety can be used in the perennial border and in combination with other bulb varieties.

Hardiness Zone 4-7

Allium
'Millenium'

2018 Perennial Plant of the Year

AMSONIA

Upright and shrub-like herbaceous perennial. Will do best in Sunny or Partial-Sunny spot. Deer resistant and drought tolerant plants, late spring to early summer flowering. Attracts pollinators and hummingbirds. Easy care plants.

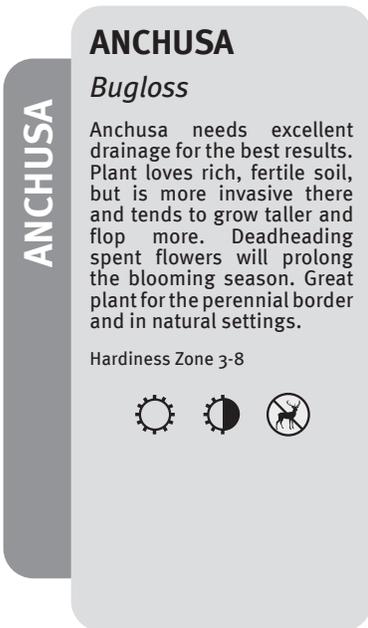

Hardiness Zone 5-9

Amsonia
'Blue ice'

Item 3887
Height: 16"/40 cm
Masses of clear blue flowers,
compact growing habit. Medium
green healthy foliage, turns to
golden yellow in Fall.

New

ANCHUSA

ANCHUSA

Bugloss

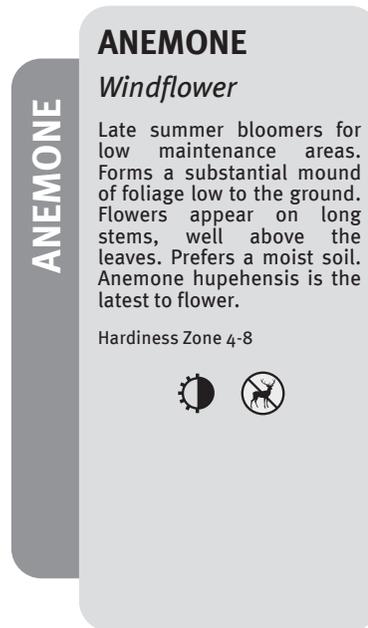

Anchusa needs excellent drainage for the best results. Plant loves rich, fertile soil, but is more invasive there and tends to grow taller and flop more. Deadheading spent flowers will prolong the blooming season. Great plant for the perennial border and in natural settings.

Hardiness Zone 3-8

Anchusa azurea
'Loddon Royalist'

Item #5276
Height: 36"/90 cm
Clump forming perennial with
royal blue forget-me-not like
flowers in late spring to early
summer. Excellent for large
container production.

ANEMONE

ANEMONE

Windflower

Late summer bloomers for low maintenance areas. Forms a substantial mound of foliage low to the ground. Flowers appear on long stems, well above the leaves. Prefers a moist soil. Anemone hupehensis is the latest to flower.

Height: 16"/40 cm
Beautiful two-toned up facing flowers (red and white). Mildew tolerant. Blooms long time in early spring.

ARUNCUS

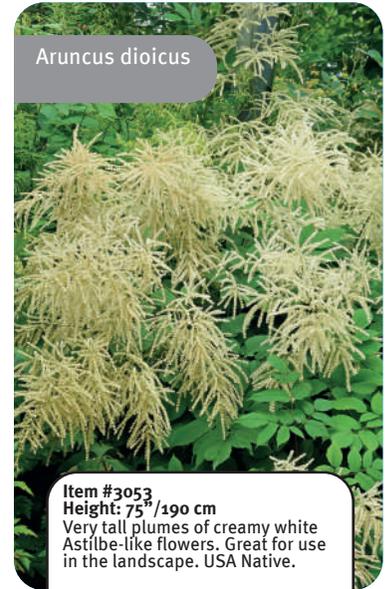

Goats Beard

An interesting shrub-like plant with many branching stems. Above the foliage, creamy white flowers appear in early summer. The tall varieties resemble Astilbe-like flowers.

Hardiness Zone 4-8

Aruncus dioicus

Item #3053
Height: 75"/190 cm
Very tall plumes of creamy white Astilbe-like flowers. Great for use in the landscape. USA Native.

Aruncus
'Silver Filigree'

New

Item 9013
Height: 16"/40 cm
Arching creamy white plumes, attractive soft green (turns orange in Fall) fern-like foliage. Early summer flowering.

Aruncus hybride
'Sparkles'

Item #3084
Height: 16"/40 cm
Compact growing aruncus, heavy creamy-white dense plumes with pinnately divided leaves.

ASCLEPIAS

Butterfly Weed

The stems are topped by many small umbels of many small flowers in spring and continue to bloom for at least six weeks in the garden. Plants prefer a well-drained soil and are very tolerant of poor dry conditions and drought. Asclepias can also be used for cut flowers and are excellent for large landscape projects. Butterflies are attracted to the plant because of its color and nectar production.

Hardiness Zone 4-9

ASCLEPIAS

Asclepias tuberosa

2017 Perennial plant of the Year

Item #3055
Height: 22"/55 cm
Attracts butterflies. Grows well in dry gravelly soil. Good cut flower. USA Native plant. Stems do not release milky sap. Up to 3 months of bloom!

HELLEBORUS

HELLEBORUS

Christmas Rose

The evergreen plant is not difficult to grow, but does require some attention. It mainly grows in the spring and fall. Due to the heat, these plants hardly grow in the summer. By planting them in early spring, you provide the best growing conditions for them. Do not fertilize during the summer months, since they are in their resting period. The Christmas Rose produces flowers from late fall until early spring. Each flower stalk bears a single 2-4"/5-10 cm bloom.
