Daffodil Ice Follies

The snow queen among the daffodils is the Daffodil Ice Follies. This sort is part of the large cupped daffodils but is popular for its bright white, light-yellow trumpet. In between a field of cheerful daffodils, the Ice Follies stand out because of the beautiful pure white color.

How Daffodil Ice Follies look

The sweetly fragrant, beautiful shaped daffodil Ice Follies are a blessing to the eye. The large flowers grow 4" (9.5 cm) wide and show creamy, pure white, light-yellow colors. This Daffodil differs from other daffodils, which are bright yellow. The fast-growing and popular daffodil grows from mid-spring and is a wonderful naturalizer. This vigorous grower and heavy bloomer is great for cut flowers. If planted within groups, the daffodil Ice Follies make the best visual impact.

How to grow Daffodil Ice Follies

We offer wholesale daffodil bulbs for wonderful spring beddings, colorful lawns, and bright balcony flower pots.

- Plant the daffodil bulbs in the fall.
- Daffodils like to be planted in average, medium moisture, well-drained soil.
- Choose a full sunny or partly shaded spot.
- Water often during the growing season. After the flowering period, reduce watering.
