Peony Inspecteur Lavergne

The cherry-red flowers of the Peony Inspecteur Lavergne bloom from May to June. The mature plant can become 3 feet (90 cm) high. The plant is hardy and easily survives frost. If planted on the right full sunny spot, the plant returns year after year and produces large flowers. Order Peony Inspecteur Lavergne online at De Vroomen, and we ship your peonies to the USA and Canada.

Peony Inspecteur Lavergne in the border

Gardeners who have a large backyard, love the Peony Inspecteur Lavergne. The Peony Inspecteur Lavergne has remarkable stems, that are brown-red, and the plant produces grey-green leaves. The Peony Inspecteur Lavergne makes the best visual effect when planted in small groups of five per square meter.

- The stems grow up to 30-40"; (80-100 cm) (This makes the flowers perfect for the middle of the border)
- The Peony Inspecteur Lavergne produces one large flower and several side buds
- Loves a sunny, airy, well-drained soil that is humus-rich

Care for Peony Inspecteur Lavergne

The Peony Inspecteur Lavergne flowers form ;an upright bush of dark green leaves that remain attractive all season. The Peony Inspecteur Lavergne produces large double flowers of deep red with the petals in white. From May to June, these showstoppers steal the show in every garden. Peonies rarely need to be divided or moved, they require one permanent location. But if you want to move the peony plant, do this in fall, after the flowering period and before winter, so the plant has enough time to establish on the new location. Enjoy the Peony Inspecteur Lavergne!
