Tulip Purple Flag

The high-stemmed Purple Flag tulips are beautiful flowers with deep purple petals. Tulips make for strong perennials, as well as elegant cut flowers. When planted before winter, the flowers will flourish in landscapes, fields and yards in spring. The flowers with sturdy stems that can grow up to 18 inches will bloom mid-spring, real proven performers!

Planting tulip bulbs

Originating from mountain areas, tulips are well adapted to living in temperate climates with moderate rainfall. This is one of the reasons these bright flowers are among the most popular of perennials for landscaping purposes. Instructions for planting tulip bulbs:

- Plant tulip bulbs before at least several weeks before the first frost of the year, preferably somewhere between september and december;
- Plant tulip bulbs four inches into the ground to be sufficiently protected from the cold weather above the ground;
- Plant the bulbs from the Purple Flag tulips from De Vroomen approximately two inches apart from one another.

A wide assortment of wholesale tulip bulbs

From our assortment at De Vroomen we offer a wide range of wholesale perennials, such as the Purple Flag tulips. All flowers are professionally grown for a wide range of business associations, from landscape contractors to municipalities and from garden centres to garden designers. Our flowers and plants are renowned for their high quality and deep colors.
